

SHAHKY YANDHANA PUTRA

Yogyakarta, Indonesia • • yandhanashahky@gmail.com • linkedin.com/in/shahky • github.com/shahky

EDUCATION

UNIVERSITAS MUHAMMADIYAH YOGYAKARTA

Bachelor of Information Technology (GPA: 3.20/4.00)

Relevant Coursework: Web Programming, Data Structures, UX Design, Data Analytics

Yogyakarta, ID

Present

PROFESSIONAL EXPERIENCE

TENTI SPECTAWAVE

Participant Liaison Coordinator

Yogyakarta, ID

Jan 2026

- Managed the end-to-end participation lifecycle for competitive teams, serving as the primary technical point of contact regarding design specifications.
- Ensured 100% data integrity and administrative accuracy for all submissions, effectively bridging the communication gap between participants and the judging panel.
- Facilitated technical meetings and real-time troubleshooting, ensuring a seamless operational flow during the competition period.

PROJECTS

STUDYCHAT PROMPTPACE — BEHAVIORAL CLASSIFICATION & ANALYSIS

Python, Pandas, Matplotlib, JSONL

Metodologi Penelitian

Project

Jun 2026

- Classified 16,851 student chatbot prompts into Answer-First and Explain-First categories using keyword-based rules to analyze help-seeking behavior.
- Designed a simple blocking/pivot simulation system that detects answer-seeking prompts and suggests users rephrase for conceptual understanding.
- Computed basic metrics (AFR, BE, EFAR) to measure the potential effect of the intervention, though actual user testing was not conducted.
- Built a Python script to automate data processing and generate CSV reports and charts for academic documentation.

BAPAK BAKERY E-CATALOG & INTEGRATED CMS

Laravel, FilamentPHP, React.js, MySQL

Full Stack Development

Dec 2025

- Architected a decoupled E-Catalog system using React.js for the frontend interface and FilamentPHP (Laravel) as the headless CMS backend.
- Engineered RESTful API endpoints to synchronize real-time product inventory, pricing updates, and category management between the CMS and the client-side catalog.
- Optimized database queries and asset delivery to ensure high-performance rendering of product catalogs across various devices.

CSBD CLASSIFICATION USING EEG — LOGISTIC REGRESSION PIPELINE

Python, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, JSON

Machine Learning & Signal

Processing

Dec 2025

- Built a Logistic Regression model to detect Compulsive Sexual Behavior Disorder from EEG data (AUC 0.842, Accuracy 76%) using ANOVA feature selection and 80K-fold validation.
- Automated end-to-end reporting pipeline exporting JSON metrics, ROC curves, and stability plots.

LAPOR VISUAL | UX RESEARCH & SOLUTION

Figma, User Journey Mapping, Data Viz

SisfoFest 2025

Nov 2025

- Presented an evidence-based design proposal at SisfoFest 2025, centered on optimizing civic interaction within smart city ecosystems.
- Leveraged deep UX research methodologies to solve complex urban reporting challenges, transforming raw citizen data into actionable visual insights.
- Designed high-fidelity prototypes that streamline the reporting process, significantly reducing user friction and enhancing data clarity for municipal stakeholders.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), PHP, Python, SQL, HTML5, CSS3

Frameworks & Tools: React.js, Laravel, FilamentPHP, Node.js, Docker, Nginx, Git, GitHub, Pandas, Matplotlib

CERTIFICATES

CLOUD AND GEN AI FOUNDATIONS ON AWS

Dicoding Indonesia

Valid until May 2028

FOUNDATION OF ARTIFICIAL INTELLIGENCE

Dicoding Indonesia

Valid until June 2028

BACK-END BEGINNER WITH JAVASCRIPT

Dicoding Indonesia

Valid until February 2028
